Middle Project Manager

Serhii Prihodko

I am an experienced Project and Product manager. I have experience in managing projects from scratch to first release and beyond. Worked with more than 8 teams of developers all over the world at the same time. I am able to create development processes and improve your business KPI using Agile methodologies.

Experienced at facilitating and coordinating, product backlog handling, grooming, conducting demo to the client. Preparing mock-ups and review them with the stakeholders.

I have a lot of experience in communication with stakeholders and customers to transform all their requirements to the stories and task for the developers.
